# World's First Live Bot Store
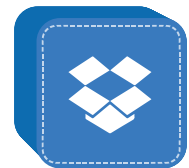

Bots + Smart Messages = Magic

Sample code snippet:

```
* This method posts Hello World message, when any user posts hi message to
* the logged in user (see main method)
**/
@OnKeyword("hi")
public void HelloWorld(TeamchatAPI api) {
    api.perform(
        api.context().currentRoom().post(
            new TextChatlet("Hello World!!")
        )
    );
  }
}
```

Ready Integrations

and many more...

Check our Botstore for pre-built bots to use in your workflows or build your own bots.
